## Hello from the Editor - Kristy

Hello USMMA members. This has been great follow up month for the USMMA. I have had tons of responses from you and stories to share. I look forward to getting more and letting everyone get to know you.

## Getting to Know You!

Everyone has a story to share whether it be moving or funny or traditional in how they got involved with the Marchadors in the beginning. I shared my short story with you last month, this month we will hear from new member Marli Wood.

"I was lucky enough to purchase my Marchador from Summerwind Marchadors. I first noticed them In December of 2006 issue of California Riding Magazine. I've ridden several disciplines, but found my true love was riding and working with the hunter / jumper world. I guess after enough falls, my back completely quit on me. I was facing not riding, much less jumping, again. I could not accept this so I started my search.

After researching many gaited breeds, I kept going back to the Marchador and Summerwind. I contacted Lynn and told her about my situation. Lynn proceeded to gently guide me through a totally new world.

There were a lot of different factors for me to consider. We agreed a young horse would be best so I could continue to heal while a youngster could grow up. A baby in-utero just seemed too long. Ultimately Lynn agreed to sell me her 'pride and joy' Caesar do Summerwind. Lynn did not intend to sell Caesar—she did this for me. Lynn continues to enrich my life with practical information and beautiful history. Finding Lynn's friendship through this amazing breed has opened up a whole new chapter in my life... one last time."

Here is Caesar! then

## USMMA News and Updates

### Registrar's Report as of March 2008-

127 horses registered

90% of known MM in US

The registrar is working with USMMA members to straighten out ABCCMM paperwork in preparation for the upcoming ABCCMM inspection visit. If you need any assistance with Brazilian registration papers please contact Lynn at [kellyaz@rnsmtc.com](mailto:kellyaz@rnsmtc.com).

### ABCCMM News –

Getulio Tadeu Vieira and Henrique Melo will be coming to the US to perform ABCCMM inspections on US-born horses. Some USMMA members have maintained membership in the ABCCMM association and continue the long-standing

traditions. The ABCCMM inspectors bring a wealth of knowledge about the breed.

### Special Event

The USMMA will be tapping into that knowledge by continuing the training of US veterinarians Hugh Rogers and Tia Nelson.

The USMMA will also be holding a clinic in Montana using the inspection process to highlight gait, confirmation, temperament and the breed standard. The clinic is open to all members and interested parties. Please contact Lynn Kelley, clinic chair, for more information at [kellyaz@rnsmtc.com](mailto:kellyaz@rnsmtc.com)

## Thanks from the USMMA

USMMA President Tresa Smith in an open letter to retiring ABCCMM President, Eduardo Costa Simoes.

Dear Mr. President.

Thank you for all you have done to help and to guide the USMMA in its formative years. Before your term ends as ABCCMM President, we want to make certain you know how greatly we appreciate what you have done for us. You have done so much but to focus this thank you, I want to borrow from David Letterman. Here are the TOP TEN REASONS we thank you.

1. Fighting to preserve the integrity of the Horseshoe M brand

2. Twice sending ABCCMM technicians to the U.S. for inspections and for teaching us about the Marchador breed.
3. Hosting our two veterinarians in Brazil and working with them to become qualified inspectors.
4. Making it possible for the U.S. to obtain frozen semen thus insuring a broader gene pool as we develop the breed.
5. Making it possible for the U.S. to do Provisional ABCCMM Registration with DNA and photos.
6. Allowing the U.S. to do Embryo Transplants to non-Marchador mares.
7. Doing a special ABCCMM DVD in English.
8. Having an English translation on the ABCCMM website.
9. Forming a special ABCCMM Committee to focus on Exportation of the Marchador.
10. Having ABCCMM staff give special attention to resolving the U.S. special needs and problems in registration of horses.

We will miss you as President. We would love it if you came to visit us so we could personally extend our thanks

Signed, The President,

## Taking great Horse Pictures

We all want to show off our horses. However, capturing their beauty, their personality and their special-ness seems to elude us when we have a camera in our hands.

The top tips:

1. Groom your horse to look its best.
2. Work with another person to hold the horse or help you keep him moving if you want an action shot.
3. Take lots of pictures!

Here are some more tips from the pros.

### Fill the Frame!

To fill the frame:

Move closer to your subject.

Use the camera's zoom.

Crop the photo:

### Feet Close to Square

If the photo is of a horse standing still, it's usually most flattering for the horse to be standing with its feet close to square (front legs even with each

other, back legs even with each other).

### No Clutter

Make sure the background of the photo is clean and uncluttered (this includes shadows). Your horse should dominate the photograph, with little or nothing to distract the eye. Most often a "bland" background is a good background.

### Ears Up!

A horse with its ears back, down, or to the side in a picture looks like a person with a frown on its face.

Dondeca do Lusonatica, born March 10. What a cutie!

## The Computer Corner

Please send in your tips on how better to use the computer, internet or nifty websites to share with other members.

This month's tip is [www.vistaprint.com](http://www.vistaprint.com).

They offer FREE business cards – you pay only shipping and handling if you can make one of their 42 standard designs work for you.

Their premium business cards are only \$3.99!

You can upload photos of your horses or logo to

customize the card.

You can also print front and back of the card. Using the back allows you to include more information, like directions to your ranch.

I found the website easy to use and you can save your work so if you get interrupted, you can finish later. Saving the work also helps when you need to change one piece of information to not have to type everything over.

I would recommend using the PROOF feature which

sends you what the card will look like before you actually print it.
